Solution –

Before entering Voucher in Tally, we have to create the ledger of all the transactions, so let's first create the ledger –

- 1- Go to the gateway of tally
- 2- Accounts Info
- 3- Select Ledger
- 4- Create

Now the screen of the ledger creation will be displayed in front of you, in which create all the ledger one by one and yes to the GST while creating the GST Ledger and fill the relevant information.

Now we have to do important work in which we will create a Stock Item for GST Entry, in which we will carefully input GST Rate.

Ledger	Ledger Under Group
Capital A/c	Capital Account
SBI Bank Dhamtari	Bank Account
Furniture A/C	Fixed Account
Purchase A/c	Purchase Account
SGST	Duties & Taxes
CGST	Duties & Taxes
IGST	Duties & Taxes
Shri Cloth Store Raipur	Sundry Creditor
Electricity Bill A/c	Indirect Expenses
Food & Snacks	Indirect Expenses
Telephone Bill A/c	Indirect Expenses
Bank Interest Received A/c	Indirect Income
Rent	Indirect Expenses
Trisha Cloth Centre	Sundry Debtor

(Office maintenance given Rs. 5000)

GST

What is Goods and Service Tax Act 2017?

GST is an Indirect Tax which has replaced many Indirect Taxes in India. The Goods and Service Tax Act was passed in the Parliament on 29th March 2017. The Act came into effect on 1st July 2017; Goods & Services Tax Law in India is a comprehensive, multi-stage, destination-based tax that is levied on every value addition.

In simple words, Goods and Service Tax (GST) is an indirect tax levied on the supply of goods and services. This law has replaced many indirect tax laws that previously existed in India.

Types of taxes under GST

There are currently three types of GST

- **CGST** – Central GST – Applies to sales within the state – goes to Central Government
- **SGST** – State GST – Applies to sales within the state – goes to State Government
- **IGST** – Integrated GST – Applies to sales outside the state – goes to Central Government

For example, if you sell something within the state, 50% of the GST will be CGST and 50% of the GST will be SGST. But when you sell something outside a state, 100% of it will be IGST which will go to the Central Government.

Now that you have a basic understanding of how GST works, we can go ahead to understand the working of GST in Tally along with its accounting and calculation.

How to begin Tally ERP 9?

In order to use Tally, following steps must be followed

- To create a company in Tally
- To enable GST Features
- To create ledgers

Let's discuss the above in detail

To create a company in Tally

Step 1 :-	Go to Gateway of Tally > Alt + F3 > Create Company
Step 2 :-	Enter the basic information, i.e., name, mailing name and address of the company, currency symbol etc.
Step 3 :-	In the 'maintain field', select Accounts Only or Accounts with Inventory as per the company requirements.
Step 4 :-	In the Financial Year from, the first day of the current financial year for e.g., 1-4-2018 will be displayed by default, which can be changed as per requirement.
Step 5 :-	Enter the Tally Vault Password if required.
Step 6 :-	Press Y or Enter to accept and save.

To enable GST features in Tally

Step 1 :-	Go to Gateway of Tally > F11: Features > F3 : Statutory & Taxation
Step 2 :-	<p>In the screen you will find the following options :-</p> <ul style="list-style-type: none">•<ul style="list-style-type: none">○ Enable goods and service tax (GST): Yes○ Set/alter GST Details: Yes. <p>This will display another screen where you can set GST details of the company such as the state in which the company is registered, registration type, GSTIN number etc.</p>
Step 3 :-	Press Y or Enter to accept and save.

To create ledgers

After creating a company and activating GST features, you need to create ledgers that will enable you to pass accounting entries in Tally ERP 9.

Step 1 : -	Go to Gateway of Tally > Accounts Info > Ledgers > Create
Step 2 : -	Create ledgers such as Purchase, Sales, State GST, Central, Integrated GST, Stock item names etc.
Step 3 : -	Select the appropriate group to which such ledger belongs for example state tax under duties and taxes group.
Step 4 : -	Enter the other related information required and press Y or Enter to accept and save.

After creating ledgers we can proceed with preparing Accounting entries in Tally ERP 9. For that we have to follow: -

Gateway of Tally > Accounting Vouchers

There are many accounting vouchers in Tally such as Payment, Receipt, Contra, Sales, Purchase, etc. After choosing the relevant voucher we start passing the accounting entries.

How will GST work in Tally.ERP 9?

The functionality of GST in Tally is almost the same as prevalent during erstwhile taxation laws such as VAT or CST or Service Tax.

The first step before passing an Accounting Entry in Tally is to make GST Calculation. But first, let's take an example for our understanding. For example: M/s ABC Ltd of Mumbai sold goods worth Rs. 50,000/- to M/s XYZ Inc. of Ahmedabad; GST rate applicable for the given product is 18%

GST Calculation - M/s ABC Ltd has to collect GST and say it is 18%. Then GST will come at Rs. 9,000/-.

Taxable Value - This is the portion on which tax will be levied (i.e.,) Rs. 50,000/- in this case.

Type of Tax to select - Since it is a transaction involving Inter-State trade, the ledger to create and select while preparing Accounting entry is IGST ledger.

Rate of Tax to be fed during Tax Ledger creation screen - 18% IGST (Tax type: Integrated Tax).

Tax rate to key while preparing Stock Item Ledger -18% IGST and Tally will automatically bifurcate and distribute the tax rate to CGST and SGST as 9% each.

Other ledgers to create -Create XYZ Inc., ledger along with GSTIN number.

Now we have to go to the Accounting Voucher Screen and fit these details in Sales Voucher screen (F8). We are also not required to worry about tax calculation as Tally automatically calculates Tax amount portion based on the details fed in Stock Item Creation Screen and Tax ledger creation screen.
